Summary

Results-driven Data Analyst with 15+ months of professional experience at Accenture in data-intensive operations. Analyzed and validated high-volume structured datasets, built predictive models, and developed interactive dashboards to support business monitoring and decision-making. Proficient in SQL, Python (Pandas, NumPy, Scikit-learn), Power BI, Tableau, and Advanced Excel. Completed hands-on coursework and projects in Python, SQL, Machine Learning, and dashboard analytics. Actively seeking an entry-level Data Analyst or Business Analyst role to drive data-driven decisions.

Technical Skills

- **Programming:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)
- **Data Analysis & Visualization:** Power BI (DAX, Power Query), Tableau, Excel (Pivot Tables, VLOOKUP, Charts)
- **Databases:** SQL (MySQL, SQL Server, Joins, CTEs, Window Functions, Stored Procedures)
- **Data Techniques:** Data Cleaning, Exploratory Data Analysis (EDA), Predictive Modeling, ETL & Data Integration
- **Analytics:** Statistical Analysis, KPI Development, Hypothesis Testing, Anomaly Detection
- **Tools & Platforms:** Jupyter Notebook, GitHub, VS Code, Power BI Service | Domain: Equity & Mutual Fund Markets

Professional Experience

Data Operations Analyst | Accenture, Mumbai

June 2024 – Sep 2025

Trust & Safety Domain — Content Moderation & Data Operations

- Reviewed and validated high volumes of structured data daily, maintaining accuracy rates above 98% under strict SLA deadlines in a fast-paced, data-intensive environment.
- Detected fraudulent patterns and policy violations using rule-based data review frameworks, reducing escalation rates through consistent quality benchmarks and anomaly detection.
- Collaborated with cross-functional QA teams to surface data trends and strengthen data reliability, consistently exceeding individual productivity targets.

Projects

Telecom Customer Churn Prediction | Python • SQL • Scikit-learn • Power BI

- Built an end-to-end ML pipeline on 7,000+ customer records — data cleaning, feature engineering, and model evaluation — achieving 85% accuracy with a Random Forest classifier.
- Identified top churn drivers (contract type, tenure, monthly charges) and delivered an interactive Power BI dashboard with dynamic KPIs and segment-level filters for business stakeholders.

Website Traffic Analysis & Performance Dashboard | SQL • Python • Tableau • Excel

- Analysed 50,000+ website sessions across 6 months using SQL and Python to uncover trends across 8+ acquisition channels, devices, and geographic regions.
- Built a Tableau dashboard tracking 10+ KPIs with drill-down capabilities, replacing manual reporting and centralising performance visibility for stakeholders.

Education

SATISH PRADHAN DHYANSADHNA COLLEGE, UNIVERSITY OF MUMBAI

India

B.Com – Banking & Insurance (BBI) (CGPA: 8.00 / 10.00)

2021 – 2024

HSC & SSC — Maharashtra State Board, Thane

Certifications & Achievements

- **Google Analytics Certification** | Google Skillshop | May 2026
- **IBM Data Analysis with Python (DA0101EN)** | IBM Developer Skills Network | May 2026
- **IBM Python 101 for Data Science (PY0101EN)** | IBM Developer Skills Network | May 2026
- **Deloitte Data Analytics Job Simulation** | Forage | Jan 2025 – Feb 2025
